MEA-MFT urges local school affiliates to negotiate into their master agreements full adoption and enforcement of the Montana school accreditation standards.

Any information resulting from the mentoring process must be confidential and the sole property of the person mentored.

MEA-MFT believes peer mentorship is a responsibility of both union and management that should be collaborative and bargained mutually into local collective bargaining agreements.

If management is uninterested or unable to collaborate, MEA-MFT encourages local affiliates to design and implement their own peer mentorship programs.

A-6 Peer Review (19)

MEA-MFT supports peer review as a tool to enhance professional standards when collaboratively developed and mutually bargained. MEA-MFT recognizes that the methodology of peer review is unique to each group or unit and should be developed at that level.

Peer review should supplement, not supplant, administrative accountability for workplace performance and should not deny an employee’s right to due process.
